

One on One Application:

We know how isolating it feels to accept a cancer diagnosis and navigate through all that follows. That's why we've created the opportunity for you to feel supported through our short-term counselling sessions.

**This program is open to Ontario residents who are of low-income with no access to therapy, identify as female, facing any type of cancer between 18-40 and are currently between this age bracket.*

**There are a limited number of spots available monthly.*

Please email your application to programs@pinkpearlcanada.org.

We'll be in touch once we receive it. Thank you!
